Other possibilities are training, uses for the DD 7260, and the personnel rotation program. Please let me have your suggestions by COB 5 January.

2. Gail and I have agreed to invite the new Information Systems Architect, [REDACTED] to participate in our seminar, which will provide an excellent opportunity for him to get acquainted with people on whom he will need to rely in months to come. We have also invited Don Wortman to join us for part of the conference if he can.
